

Autumn 1 2023

PSED and Communication

Personal, social and emotional development and communication continues to be our main priority for pupil development as our RP focusses on providing support for pupils who find these areas of learning challenging.

As always we have been working towards developing our individual targets. We have been practising our communication skills making sure we make eye contact and speak in an appropriate and clear voice when speaking to other pupils and staff. We have also been practising using the correct body language for different situations, e.g. kind hands, sharing. The speech and language therapist commissioned to our resourced provision has visited the pupils every week to support the creation and development of speech, language and communication skills within our setting.

Our Learning

This half term we have really enjoyed learning about the changes of Autumn. We have linked our weekly learning to our books of the week. During our last week before half term we designed and created pumpkin soup and leaf biscuits.

We were very impressed with how our soup and biscuits turned out! So much so we asked Miss Lodge and Mrs Page to try what we made and give us their verdict, we're pleased to say that they both really enjoyed the soup AND the biscuits!

What a great way to end the half term!
