Spaghetti Bolognese

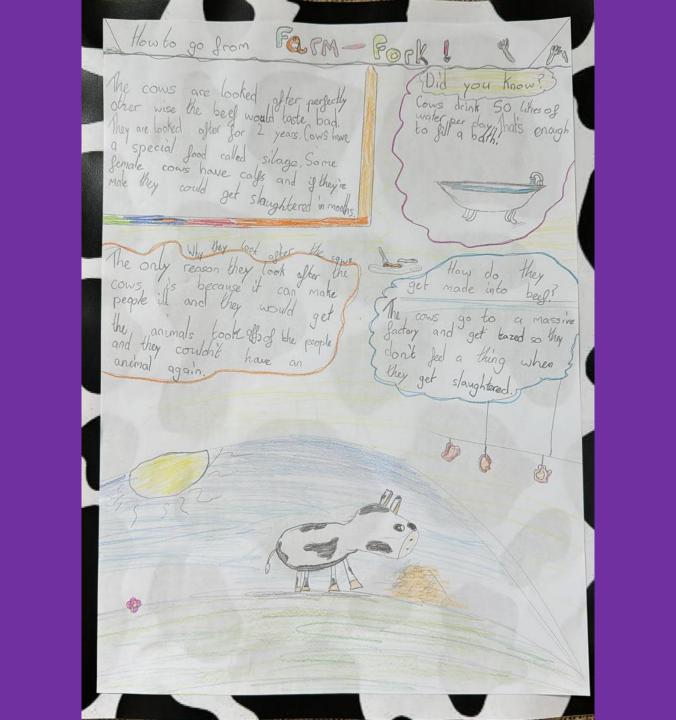

Design and Technology

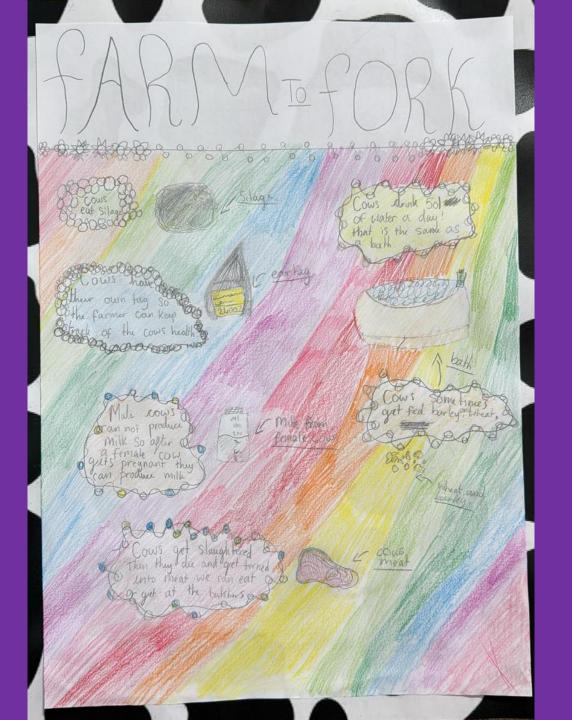

Research

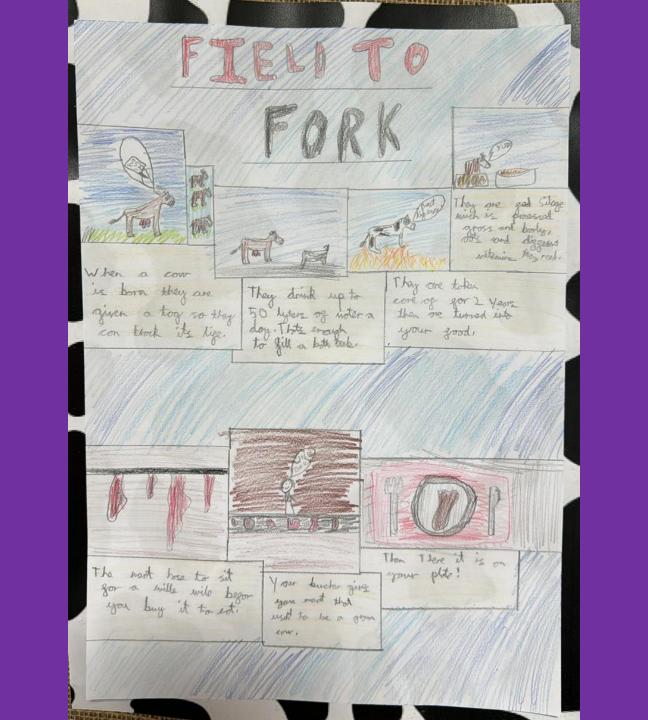

We researched how our beef made its way from the farm to our plate. We created information posters to demonstrate the process.

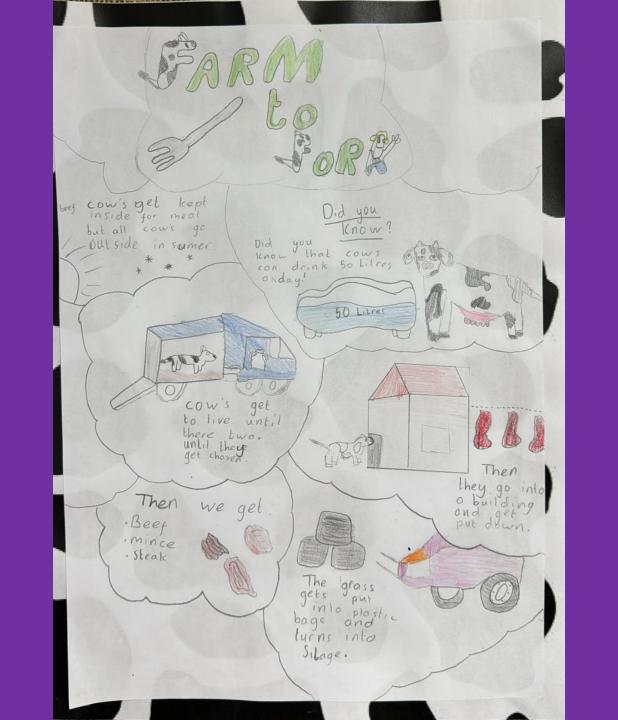

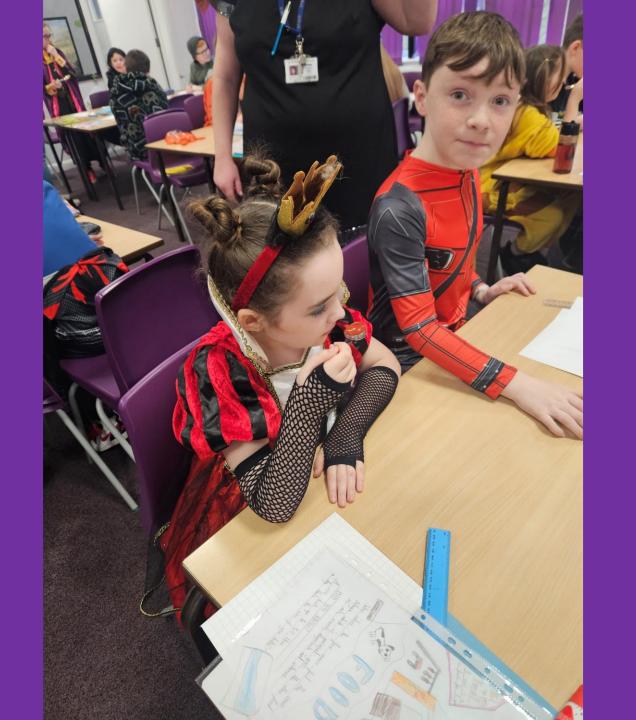

Market research

We carried out some research into Bolognese sauce. Using our senses, we made notes on their taste, scent and visual appearance. We then voted on our favourite taste and which we thought was the most premium.

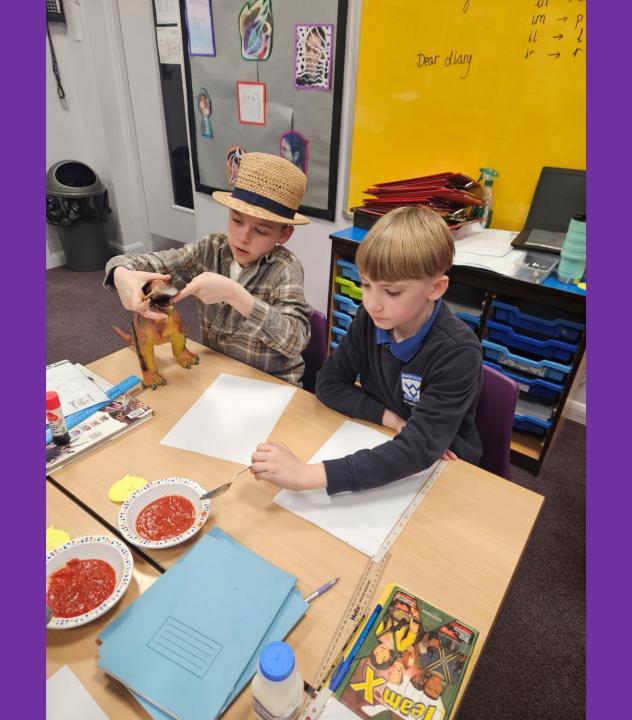

Asda Dolmio 37.9%. 62.1%. preferred preferred

51.7% thought Asda was the premium tasting pasta sauce.

Learning new skills

We have learnt how to correctly use a knife to cut vegetables, as well as how to peel carrots correctly. Some of the children completed these tasks with no prior experience of preparing a meal from scratch.

Our Final Product
